Lesson Planning

Complete Lesson Plan Book

Class: Class 12 – ICom

Subject: Accounting

Medium: English

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

Table of Contents

Unit 1: Final Accounts: Trading and Profit & Loss Account

Unit 2: The Balance Sheet

Unit 3: Depreciation: Meaning and Methods

Unit 4: Partnership Accounts: Formation

Unit 5: Partnership: Dissolution of the Firm

Unit 6: Company Accounts: Issue of Shares

Unit 7: Ratio Analysis

Unit 8: Incomplete Records (Single Entry System)

DM

Unit 1: Final Accounts: Trading and Profit & Loss Account

Learning Objectives

• Explain the purpose of final accounts.

• Prepare a trading account and find gross profit.

• Prepare a profit and loss account and find net profit.

Key Concepts

• Final accounts: summary of a year's business results.

• Trading account: gross profit = sales minus cost of goods sold.

• P&L account: net profit after all expenses.

• Direct vs indirect expenses.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Final Accounts: Trading and Profit & Loss Account to activate prior knowledge.

2. Present the core ideas of Final Accounts: Trading and Profit & Loss Account with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Final Accounts: Trading and Profit & Loss Account.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Final Accounts: Trading and Profit & Loss Account and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Final Accounts: Trading and Profit & Loss Account for classroom display.

Assessment Questions

1. Prepare a trading account from the given trial balance.

2. What is the difference between gross and net profit?

3. Classify the given items into direct and indirect expenses.

Homework

• Write a one-page summary of Final Accounts: Trading and Profit & Loss Account in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 2: The Balance Sheet

Learning Objectives

• Define the balance sheet and its format.

• Classify assets and liabilities correctly.

• Prepare a balance sheet from given balances.

Key Concepts

• Balance sheet: statement of financial position.

• Order: fixed assets, current assets; capital, long-term loans.

• Marshalling: liquidity or permanence order.

• It must always balance: Assets = Capital + Liabilities.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about The Balance Sheet to activate prior knowledge.

2. Present the core ideas of The Balance Sheet with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying The Balance Sheet.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of The Balance Sheet and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on The Balance Sheet for classroom display.

Assessment Questions

1. Prepare a balance sheet from the given trial balance.

2. Classify ten items into assets and liabilities.

3. Why must the balance sheet always balance?

Homework

• Write a one-page summary of The Balance Sheet in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 3: Depreciation: Meaning and Methods

Learning Objectives

• Explain depreciation and its causes.

• Apply the straight-line method of depreciation.

• Apply the diminishing-balance method.

Key Concepts

• Depreciation: fall in value of fixed assets with use.

• Causes: wear and tear, passage of time, obsolescence.

• Straight line: equal charge each year on cost.

• Diminishing balance: fixed rate on reducing value.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Depreciation: Meaning and Methods to activate prior knowledge.

2. Present the core ideas of Depreciation: Meaning and Methods with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Depreciation: Meaning and Methods.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Depreciation: Meaning and Methods and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Depreciation: Meaning and Methods for classroom display.

Assessment Questions

1. Calculate depreciation by the straight-line method.

2. Calculate depreciation by the diminishing-balance method.

3. State three causes of depreciation.

Homework

• Write a one-page summary of Depreciation: Meaning and Methods in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 4: Partnership Accounts: Formation

Learning Objectives

• Define partnership and its essential features.

• Explain the contents of a partnership deed.

• Prepare partners' capital accounts (fixed and fluctuating).

Key Concepts

• Partnership: agreement between persons to share profits.

• Deed: profit ratio, capital, salary, interest clauses.

• Fixed capital: separate current accounts; fluctuating: one account.

• Profit and loss appropriation account.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Partnership Accounts: Formation to activate prior knowledge.

2. Present the core ideas of Partnership Accounts: Formation with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Partnership Accounts: Formation.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Partnership Accounts: Formation and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Partnership Accounts: Formation for classroom display.

Assessment Questions

1. Define partnership and state its four features.

2. What should a partnership deed contain?

3. Distinguish fixed and fluctuating capital accounts.

Homework

• Write a one-page summary of Partnership Accounts: Formation in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 5: Partnership: Dissolution of the Firm

Learning Objectives

• Explain the modes of dissolution of a firm.

• Prepare the realisation account.

• Settle partners' accounts on dissolution.

Key Concepts

• Dissolution: closing the firm by agreement or law.

• Realisation account: records sale of assets, payment of liabilities.

• Order: outside liabilities first, then partners' loans, then capital.

• Treatment of unrecorded assets and goodwill.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Partnership: Dissolution of the Firm to activate prior knowledge.

2. Present the core ideas of Partnership: Dissolution of the Firm with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Partnership: Dissolution of the Firm.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Partnership: Dissolution of the Firm and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Partnership: Dissolution of the Firm for classroom display.

Assessment Questions

1. State the modes of dissolution of a partnership firm.

2. Prepare a realisation account from given data.

3. In what order are claims settled on dissolution?

Homework

• Write a one-page summary of Partnership: Dissolution of the Firm in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 6: Company Accounts: Issue of Shares

Learning Objectives

• Explain the kinds of shares and share capital.

• Pass entries for issue of shares at par and premium.

• Prepare the relevant extracts of the balance sheet.

Key Concepts

• Shares: equity and preference; capital: authorised, issued.

• Issue at par, premium or discount (with limits).

• Calls in arrears and calls in advance.

• Forfeiture and re-issue of shares.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Company Accounts: Issue of Shares to activate prior knowledge.

2. Present the core ideas of Company Accounts: Issue of Shares with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Company Accounts: Issue of Shares.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Company Accounts: Issue of Shares and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Company Accounts: Issue of Shares for classroom display.

Assessment Questions

1. Pass journal entries for shares issued at a premium.

2. Distinguish equity and preference shares.

3. What is forfeiture of shares? Pass the entry.

Homework

• Write a one-page summary of Company Accounts: Issue of Shares in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 7: Ratio Analysis

Learning Objectives

• Explain the purpose of ratio analysis.

• Calculate liquidity, profitability and solvency ratios.

• Interpret ratios for business decisions.

Key Concepts

• Ratios turn figures into meaningful comparisons.

• Liquidity: current ratio, quick ratio.

• Profitability: gross and net profit ratios.

• Solvency: debt-equity ratio; trend reading.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Ratio Analysis to activate prior knowledge.
2. Present the core ideas of Ratio Analysis with clear board notes, definitions and real-life examples.
3. Explain each key concept in sequence, using questions to check understanding at every stage.
4. Guided practice: short written exercises and class discussion applying Ratio Analysis.
5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Ratio Analysis and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Ratio Analysis for classroom display.

Assessment Questions

1. Calculate the current ratio and quick ratio.
2. Calculate gross profit and net profit ratios.
3. What does a falling current ratio indicate?

Homework

• Write a one-page summary of Ratio Analysis in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 8: Incomplete Records (Single Entry System)

Learning Objectives

• Explain the features of incomplete records.

• Prepare the statement of affairs.

• Find profit by the statement of affairs method.

Key Concepts

• Single entry: incomplete, unscientific record keeping.

• Statement of affairs: like a balance sheet from estimates.

• Profit = closing capital minus opening capital, adjusted.

• Adjust for drawings, fresh capital and depreciation.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Incomplete Records (Single Entry System) to activate prior knowledge.

2. Present the core ideas of Incomplete Records (Single Entry System) with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Incomplete Records (Single Entry System).

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Incomplete Records (Single Entry System) and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Incomplete Records (Single Entry System) for classroom display.

Assessment Questions

1. What are the defects of the single entry system?

2. Prepare a statement of affairs from given information.

3. Find profit when drawings and fresh capital are given.

Homework

• Write a one-page summary of Incomplete Records (Single Entry System) in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)
