Lesson Planning

Complete Lesson Plan Book

Class: Class 1

Subject: Science

Medium: English

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

Table of Contents

Unit 1: Living and Non-Living Things

DM

Unit 1: Living and Non-Living Things

Learning Objectives

• Students will tell living things apart from non-living things.

• Students will name three things that living things can do.

• Students will sort everyday things into living and non-living groups.

Key Concepts

• Living things are things that are alive, like people, animals and plants.

• Living things need food and water, they grow, and they can move on their own.

• Non-living things are not alive, like stones, chairs, cars and books.

• Non-living things do not eat, do not grow and do not move by themselves.

• A seed is a living thing because it can grow into a plant, but a stone can never grow.

Teaching Methodology (Step by Step)

1. Show the class a plant and a stone and ask which one is alive and how they know.
2. Explain that living things need food and water, they grow, and they move.
3. Give examples of living things: people, cats, birds, trees and flowers.
4. Explain that non-living things do not eat, do not grow and do not move by themselves.
5. Give examples of non-living things: stones, chairs, cars, books and houses.
6. Play the sorting game with picture cards and check the answers together.

Classroom Activities

• Living or non-living sort: students sort picture cards of a cat, a stone, a tree, a car and a fish into living and non-living groups.

• My garden walk: students look around the school garden and list three living things and three non-living things they see.

• Draw and label: students draw one living thing and one non-living thing and write one word about each.

Assessment Questions

1. Is a bird a living thing or a non-living thing? How do you know?
2. Name two things that living things can do but non-living things cannot.
3. Is water a living thing? Why or why not?

Homework

• Find three living things and three non-living things at home and write their names.

• Draw your favourite living thing and write one sentence about what it needs to live.

Time Allocation

40 minutes
