Lesson Planning

Complete Lesson Plan Book

Class: Class 7

Subject: Social Studies

Medium: English

Academic Year 2026-27

DM

This book is prepared as a teaching guide for teachers.

Table of Contents

Unit 1: Geography of Pakistan: Location and Neighbours

Unit 2: Physical Features of Pakistan

Unit 3: The Constitution of Pakistan

Unit 4: Government of Pakistan

Unit 5: Population of Pakistan

Unit 6: Natural Resources of Pakistan

Unit 7: The Muslim World

Unit 8: Our Culture and Heritage

DM

Unit 1: Geography of Pakistan: Location and Neighbours

Learning Objectives

- Locate Pakistan on the world map.
- Name the neighbouring countries of Pakistan.
- Describe Pakistan's latitudinal and longitudinal extent.
- Explain the strategic importance of Pakistan's location.

Key Concepts

- Pakistan lies in South Asia between latitudes 24° and 37° North.
- It shares borders with India, China, Iran and Afghanistan.
- The Arabian Sea lies to the south of Pakistan.
- Pakistan connects South Asia with Central Asia and the Middle East.
- Its location gives it great trade and strategic importance.

Teaching Methodology (Step by Step)

1. Show Pakistan on the world map and let students point it out.
2. Draw the outline map and mark the four neighbouring countries.
3. Explain the latitudinal extent and its effect on climate.
4. Discuss the strategic importance with examples (Gwadar port, trade routes).
5. Students label a blank outline map in pairs.

Classroom Activities

- Label the neighbours on an outline map of Pakistan.
- Quiz game: point to a neighbour and name it.

Assessment Questions

1. Name the four countries bordering Pakistan.
2. Which sea lies to the south of Pakistan?
3. Write two sentences on the strategic importance of Pakistan's location.

Homework

- Draw the map of Pakistan and label its neighbours and the Arabian Sea.

Time Allocation

Map work 10 min, teaching 20 min, labelling 5 min, quiz 5 min.

Unit 2: Physical Features of Pakistan

Learning Objectives

• Name the major mountain ranges of Pakistan.

• Locate the plains, plateaus and deserts.

• Describe the climate zones linked to physical features.

• Explain how physical features affect human life.

Key Concepts

• The Himalayas, Karakoram and Hindu Kush lie in the north.

• K2, the second highest peak in the world, is in the Karakoram.

• The Indus plain is fertile and densely populated.

• The Potohar plateau and Balochistan plateau are important regions.

• The Thar and Cholistan deserts lie in the east and south-east.

Teaching Methodology (Step by Step)

1. Show a physical map and identify the colour coding.
2. Point out the three northern mountain ranges and K2.
3. Trace the Indus plain from north to south.
4. Locate the plateaus and deserts on the map.
5. Discuss how mountains give water and plains give crops.

Classroom Activities

• Colour a physical map: brown for mountains, green for plains, yellow for deserts.

• Make a relief model of Pakistan with clay.

Assessment Questions

1. Name the three northern mountain ranges of Pakistan.
2. Where is K2 located?
3. Name two deserts of Pakistan.

Homework

• Write five sentences on the importance of the Indus plain.

Time Allocation

Map study 10 min, teaching 20 min, colouring 5 min, review 5 min.

Unit 3: The Constitution of Pakistan

Learning Objectives

• Define a constitution.

• State the salient features of the 1973 Constitution.

• Explain the fundamental rights of citizens.

• Describe the duties of a citizen.

Key Concepts

• A constitution is the supreme law of a country.

• Pakistan's current constitution was adopted in 1973.

• Islam is the state religion under the constitution.

• Citizens enjoy rights like equality, freedom of speech and education.

• Rights come with duties: obey the law, pay taxes, vote honestly.

Teaching Methodology (Step by Step)

1. Ask: what rules does our school follow? Link to the idea of a constitution.
2. Explain what a constitution is with simple examples.
3. Present the salient features of the 1973 Constitution one by one.
4. Discuss fundamental rights using classroom examples.
5. Students list their rights and duties in two columns.

Classroom Activities

• Class debate: are rights more important or duties?

• Make a classroom constitution with agreed rules.

Assessment Questions

1. Define a constitution.
2. Write three salient features of the 1973 Constitution.
3. Name three fundamental rights of Pakistani citizens.

Homework

• Write five duties of a good citizen.

Time Allocation

Discussion 5 min, teaching 20 min, activity 10 min, summary 5 min.

Unit 4: Government of Pakistan

Learning Objectives

• Name the three organs of government.

• Explain the functions of the legislature, executive and judiciary.

• Describe the role of the President and the Prime Minister.

• Explain the system of local government briefly.

Key Concepts

• The legislature makes laws; the Parliament has the National Assembly and the Senate.

• The executive implements laws, headed by the Prime Minister.

• The judiciary interprets laws; the Supreme Court is the highest court.

• The President is the head of state.

• Local governments solve problems at the district and village level.

Teaching Methodology (Step by Step)

1. Compare the government to a school: principal, teachers, rules.
2. Draw the three-organs chart on the board.
3. Explain the Parliament and how laws are made.
4. Explain the executive and the judiciary with examples.
5. Students match functions to organs in a worksheet.

Classroom Activities

• Mock parliament: debate and pass a class rule.

• Flow-chart drawing of the three organs.

Assessment Questions

1. Name the three organs of government and one function of each.
2. Who is the head of state of Pakistan?
3. Which is the highest court of Pakistan?

Homework

• Draw and label the structure of the government of Pakistan.

Time Allocation

Analogy 5 min, teaching 20 min, mock activity 10 min, review 5 min.

Unit 5: Population of Pakistan

Learning Objectives

• Define population and census.

• State the approximate population of Pakistan.

• Explain the causes of rapid population growth.

• Suggest measures to control population growth.

Key Concepts

• A census counts the population; Pakistan holds one every ten years.

• Pakistan is the fifth most populous country in the world.

• High birth rate and better health facilities increase population.

• Rapid growth creates problems: unemployment, crowded schools, housing shortage.

• Family planning and education help control growth.

Teaching Methodology (Step by Step)

1. Ask students how many members are in their families and average it.
2. Explain census and share Pakistan's population figures.
3. Discuss causes of growth with a cause-effect chart.
4. List the problems of overpopulation.
5. Brainstorm solutions in groups and share.

Classroom Activities

• Bar chart of family sizes in the class.

• Group posters on 'Small family, happy family'.

Assessment Questions

1. Define census.
2. Write three causes of rapid population growth.
3. Suggest two measures to control population growth.

Homework

• Write a paragraph on the problems of overpopulation.

Time Allocation

Survey 5 min, teaching 20 min, group work 10 min, sharing 5 min.

Unit 6: Natural Resources of Pakistan

Learning Objectives

• Define natural resources and list their types.

• Name the mineral resources of Pakistan.

• Explain the importance of water and forests.

• Suggest ways to conserve resources.

Key Concepts

• Natural resources are gifts of nature like water, minerals and forests.

• Pakistan has coal, natural gas, salt and limestone.

• The Salt Range is famous for rock salt.

• Forests prevent floods and give timber, but cover only a small area.

• Wasting resources today means shortage tomorrow.

Teaching Methodology (Step by Step)

1. Show samples or pictures: coal, salt, marble.
2. Classify resources into renewable and non-renewable.
3. Locate major mineral areas on the map.
4. Discuss the importance of forests and water.
5. Students pledge three ways to save water and electricity.

Classroom Activities

• Map marking of mineral-rich areas.

• Conservation pledge cards for home.

Assessment Questions

1. Name four mineral resources of Pakistan.
2. Why are forests important?
3. Write three ways to conserve water.

Homework

• Make a chart of Pakistan's natural resources.

Time Allocation

Display 5 min, teaching 20 min, map work 10 min, pledge 5 min.

DM

Unit 7: The Muslim World

Learning Objectives

• Name important Muslim countries.

• Locate the Muslim world on the map.

• Explain the concept of the Ummah.

• Describe the role of the OIC.

Key Concepts

• There are more than 50 Muslim-majority countries in the world.

• The Ummah means the global brotherhood of Muslims.

• The OIC (Organisation of Islamic Cooperation) unites Muslim countries.

• Muslim countries share common values and holy places.

• Makkah and Madinah are in Saudi Arabia.

Teaching Methodology (Step by Step)

1. Show the world map and shade major Muslim countries.
2. Explain the idea of the Ummah with the Hadith of one body.
3. Introduce the OIC and its purpose.
4. Discuss how Muslim countries can help each other.
5. Students list ten Muslim countries from memory.

Classroom Activities

• Flag drawing of five Muslim countries.

• Map quiz: point and name Muslim countries.

Assessment Questions

1. Name five Muslim countries.
2. What is the OIC?
3. Explain the concept of the Ummah in two lines.

Homework

• Draw the flags of any five Muslim countries.

Time Allocation

Map work 10 min, teaching 20 min, activity 5 min, quiz 5 min.

Unit 8: Our Culture and Heritage

Learning Objectives

• Define culture and list its elements.

• Describe the cultural diversity of Pakistan.

• Name important historical sites of Pakistan.

• Explain the need to preserve heritage.

Key Concepts

• Culture includes language, dress, food, festivals and values.

• Each province of Pakistan has its own rich culture.

• Mohenjo-daro and Taxila are world-famous heritage sites.

• The Badshahi Mosque and Lahore Fort show Mughal heritage.

• Preserving heritage keeps our identity alive.

Teaching Methodology (Step by Step)

1. Ask students about their province's dress, food and festivals.
2. Present pictures of cultural items from all provinces.
3. Show images of Mohenjo-daro, Taxila and Lahore Fort.
4. Discuss why old buildings and sites must be protected.
5. Students design a 'Cultural Day' programme for the school.

Classroom Activities

• Bring and display a cultural item from home.

• Poster on a heritage site of Pakistan.

Assessment Questions

1. Define culture and name its four elements.
2. Name two heritage sites of Pakistan.
3. Why should we preserve our heritage?

Homework

• Write about the culture of your province in ten lines.

Time Allocation

Sharing 10 min, teaching 20 min, poster 5 min, review 5 min.
