Lesson Planning

Complete Lesson Plan Book

Class: Class 2

Subject: Science

Medium: English

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

Table of Contents

Unit 1: Parts of a Plant

Unit 2: Wild and Pet Animals

Unit 3: Water and Its Uses

Unit 4: Air Around Us

Unit 5: The Sun, Moon and Stars

Unit 6: Healthy Food

DM

Unit 1: Parts of a Plant

Learning Objectives

• Students will name the parts of a plant.

• Students will tell the job of roots, stem and leaves.

• Students will label the parts on a diagram.

Key Concepts

• Roots grow underground and take water from the soil.

• The stem holds the plant upright.

• Leaves make food for the plant using sunlight.

• Flowers grow into fruits with seeds.

Teaching Methodology (Step by Step)

1. The teacher shows a real plant and names its parts.
2. Students repeat the parts and point at them.
3. The teacher explains the job of each part.
4. Students label the parts on a plant diagram.
5. Students plant seeds and observe the parts as they grow.

Classroom Activities

• Dissect a flower and name its parts.

• Leaf collection: collect and label different leaves.

Assessment Questions

1. Name the parts of a plant.
2. What is the job of roots?
3. Which part makes food for the plant?
4. Label the parts on the diagram.

Homework

• Draw a plant and label its parts.

Time Allocation

4 periods of 35 minutes each.

DM

Unit 2: Wild and Pet Animals

Learning Objectives

• Students will name five wild and five pet animals.

• Students will tell where wild animals live.

• Students will tell how to care for pet animals.

Key Concepts

• Wild animals live in forests and jungles.

• Lion, tiger, elephant and monkey are wild animals.

• Pet animals live with people in homes.

• Dogs, cats, goats and hens are pet animals.

Teaching Methodology (Step by Step)

1. The teacher shows pictures of wild animals.
2. Students name each wild animal after the teacher.
3. The teacher shows pictures of pet animals.
4. Students sort animal cards into wild and pet groups.
5. Students discuss how to care for pets.

Classroom Activities

• Animal sorting race with picture cards.

• Draw your favourite pet and write its name.

Assessment Questions

1. Name three wild animals.
2. Name three pet animals.
3. Where do wild animals live?
4. How should we care for a pet cat?

Homework

• Draw one wild and one pet animal.

Time Allocation

4 periods of 35 minutes each.

DM

Unit 3: Water and Its Uses

Learning Objectives

• Students will name five uses of water.

• Students will tell the three forms of water.

• Students will tell how to save water.

Key Concepts

• We drink water, wash with water and cook with water.

• Plants and animals need water to live.

• Water has three forms: solid ice, liquid water and steam.

• We should not waste water.

Teaching Methodology (Step by Step)

1. The teacher shows the three forms of water.
2. Students name the uses of water one by one.
3. The teacher freezes water to show ice.
4. Students watch steam rise from hot water.
5. Students make a save water poster.

Classroom Activities

• Save water poster for the classroom.

• Float and sink: test which objects float in water.

Assessment Questions

1. Name four uses of water.
2. What are the three forms of water?
3. What is frozen water called?
4. Name two ways to save water.

Homework

• Save water at home for one day.

Time Allocation

4 periods of 35 minutes each.

DM

Unit 4: Air Around Us

Learning Objectives

• Students will tell that air is everywhere.

• Students will show that air takes up space.

• Students will name two uses of air.

Key Concepts

• Air is all around us but we cannot see it.

• We breathe in air to stay alive.

• Moving air is called wind.

• Wind helps boats sail and dries our clothes.

Teaching Methodology (Step by Step)

1. The teacher waves a fan and students feel the air.
2. Students blow into a balloon to see air fill it.
3. The teacher shows that an empty bottle has air.
4. Students make paper fans and feel the wind.
5. Students list things that need air.

Classroom Activities

• Make a paper fan and race with it.

• Balloon blow race in pairs.

Assessment Questions

1. Can we see air?
2. What is moving air called?
3. Name two uses of air.
4. Show that air takes up space.

Homework

• Make a paper fan at home.

Time Allocation

3 periods of 35 minutes each.

DM

Unit 5: The Sun, Moon and Stars

Learning Objectives

• Students will tell what the sun gives us.

• Students will tell when we see the moon and stars.

• Students will draw the sun, moon and stars.

Key Concepts

• The sun is a big ball of fire in the sky.

• The sun gives us light and heat.

• The moon shines at night with a soft light.

• Stars twinkle in the night sky.

Teaching Methodology (Step by Step)

1. The teacher shows pictures of the sun, moon and stars.
2. Students name each one after the teacher.
3. The teacher explains day and night simply.
4. Students draw the day sky and the night sky.
5. Students sing a rhyme about the sun and moon.

Classroom Activities

• Day and night sky painting.

• Star counting from a night sky chart.

Assessment Questions

1. What does the sun give us?
2. When do we see the moon?
3. What do stars do at night?
4. Draw the night sky.

Homework

• Look at the sky at night and count the stars.

Time Allocation

3 periods of 35 minutes each.

DM

Unit 6: Healthy Food

Learning Objectives

• Students will name five healthy foods.

• Students will tell why we eat healthy food.

• Students will sort foods into healthy and unhealthy.

Key Concepts

• Healthy food keeps our body strong.

• Milk, eggs, fruits and vegetables are healthy.

• Too many sweets and chips are unhealthy.

• We should eat three meals every day.

Teaching Methodology (Step by Step)

1. The teacher shows pictures of healthy foods.
2. Students name each healthy food.
3. The teacher shows unhealthy foods for contrast.
4. Students sort food cards into healthy and unhealthy.
5. Students plan a healthy lunch box.

Classroom Activities

• Healthy lunch box planning activity.

• Fruit chaat day: make and eat a healthy snack.

Assessment Questions

1. Name four healthy foods.
2. Why should we drink milk?
3. Are chips healthy or unhealthy?
4. Plan a healthy lunch for tomorrow.

Homework

• Eat one fruit every day this week.

Time Allocation

3 periods of 35 minutes each.
