# Lesson Planning

## Complete Lesson Plan Book

**Class: Class 11 – FA**

**Subject: Education**

**Medium: English**

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

# Table of Contents

Unit 1: Meaning, Scope and Importance of Education

Unit 2: Philosophies of Education: Idealism and Realism

Unit 3: Pragmatism and Islamic Philosophy of Education

Unit 4: Aims of Education

Unit 5: Curriculum: Meaning, Principles and Types

Unit 6: The Teacher: Role and Qualities

Unit 7: Methods of Teaching: Lecture, Discussion, Demonstration

Unit 8: Assessment and Examination

DM

# Unit 1: Meaning, Scope and Importance of Education

## Learning Objectives

• Define education in its narrow and wider senses.

• Describe the scope of education as a discipline.

• Explain the importance of education for individual and society.

## Key Concepts

• Narrow sense: schooling; wider sense: lifelong learning.

• Etymology: Latin 'educare' – to bring up, to draw out.

• Scope: aims, curriculum, methods, teacher, learner, environment.

• Education builds character, skills and national progress.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Meaning, Scope and Importance of Education to activate prior knowledge.

2. Present the core ideas of Meaning, Scope and Importance of Education with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Meaning, Scope and Importance of Education.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Meaning, Scope and Importance of Education and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Meaning, Scope and Importance of Education for classroom display.

## Assessment Questions

1. Define education in its narrow and wider senses.

2. Describe the scope of education.

3. Why is education important for society?

## Homework

• Write a one-page summary of Meaning, Scope and Importance of Education in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 2: Philosophies of Education: Idealism and Realism

## Learning Objectives

• Explain the basic ideas of idealism in education.

• Describe realism and its implications for teaching.

• Compare the two philosophies briefly.

## Key Concepts

• Idealism: ideas and values are the ultimate reality.

• Idealist aims: character building, truth, moral values.

• Realism: the physical world is real; learn through senses.

• Realist methods: observation, experiment, practical work.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Philosophies of Education: Idealism and Realism to activate prior knowledge.

2. Present the core ideas of Philosophies of Education: Idealism and Realism with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Philosophies of Education: Idealism and Realism.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Philosophies of Education: Idealism and Realism and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Philosophies of Education: Idealism and Realism for classroom display.

## Assessment Questions

1. What are the basic ideas of idealism?

2. How does realism influence teaching methods?

3. Compare idealism and realism in two points.

## Homework

• Write a one-page summary of Philosophies of Education: Idealism and Realism in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 3: Pragmatism and Islamic Philosophy of Education

## Learning Objectives

• Explain pragmatism and its 'learning by doing' principle.

• Describe the Islamic philosophy of education.

• Compare Western and Islamic aims of education.

## Key Concepts

• Pragmatism: truth is what works; learn by doing.

• Dewey: school as a miniature society; project method.

• Islamic view: knowledge ('Ilm) as worship and duty.

• Islamic aims: faith, character, useful knowledge, service.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Pragmatism and Islamic Philosophy of Education to activate prior knowledge.

2. Present the core ideas of Pragmatism and Islamic Philosophy of Education with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Pragmatism and Islamic Philosophy of Education.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Pragmatism and Islamic Philosophy of Education and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Pragmatism and Islamic Philosophy of Education for classroom display.

## Assessment Questions

1. What is the 'learning by doing' principle?

2. Describe the Islamic philosophy of education.

3. State two differences between pragmatism and Islamic aims.

## Homework

• Write a one-page summary of Pragmatism and Islamic Philosophy of Education in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 4: Aims of Education

## Learning Objectives

• Distinguish between aims, goals and objectives.

• Classify aims into individual and social categories.

• Formulate aims for the Pakistani context.

## Key Concepts

• Aims: broad purposes; objectives: measurable outcomes.

• Individual aims: character, livelihood, personality development.

• Social aims: citizenship, national unity, progress.

• Pakistan: Islamic values with modern knowledge and skills.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Aims of Education to activate prior knowledge.

2. Present the core ideas of Aims of Education with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Aims of Education.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Aims of Education and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Aims of Education for classroom display.

## Assessment Questions

1. Distinguish between aims and objectives.

2. Classify the aims of education with examples.

3. Suggest three aims of education for Pakistan.

## Homework

• Write a one-page summary of Aims of Education in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 5: Curriculum: Meaning, Principles and Types

## Learning Objectives

• Define curriculum and explain its components.

• Describe the principles of curriculum construction.

• Distinguish between subject-centred and activity curricula.

## Key Concepts

• Curriculum: all planned learning experiences of the school.

• Components: objectives, content, methods, evaluation.

• Principles: child-centredness, flexibility, relevance, continuity.

• Types: subject-centred, integrated, activity-based.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Curriculum: Meaning, Principles and Types to activate prior knowledge.

2. Present the core ideas of Curriculum: Meaning, Principles and Types with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Curriculum: Meaning, Principles and Types.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Curriculum: Meaning, Principles and Types and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Curriculum: Meaning, Principles and Types for classroom display.

## Assessment Questions

1. Define curriculum and state its components.

2. Describe four principles of curriculum construction.

3. Distinguish subject-centred and activity curricula.

## Homework

• Write a one-page summary of Curriculum: Meaning, Principles and Types in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 6: The Teacher: Role and Qualities

## Learning Objectives

• Describe the changing role of the teacher.

• List the professional and personal qualities of a good teacher.

• Explain the teacher as a guide and nation builder.

## Key Concepts

• From lecturer to facilitator and mentor.

• Qualities: knowledge, patience, fairness, communication.

• Teacher as role model: character teaches more than words.

• Professional growth: training, reflection, lifelong learning.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about The Teacher: Role and Qualities to activate prior knowledge.

2. Present the core ideas of The Teacher: Role and Qualities with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying The Teacher: Role and Qualities.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of The Teacher: Role and Qualities and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on The Teacher: Role and Qualities for classroom display.

## Assessment Questions

1. Describe the role of a teacher as a facilitator.

2. List six qualities of a good teacher.

3. Why is the teacher called a nation builder?

## Homework

• Write a one-page summary of The Teacher: Role and Qualities in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 7: Methods of Teaching: Lecture, Discussion, Demonstration

## Learning Objectives

• Describe the lecture method with its merits and limits.

• Explain how to conduct effective class discussion.

• Demonstrate the steps of the demonstration method.

## Key Concepts

• Lecture: economical for large classes; risk of passivity.

• Discussion: develops thinking, expression and confidence.

• Demonstration: show and explain; ideal for science and skills.

• Choice of method depends on objectives, content and class.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Methods of Teaching: Lecture, Discussion, Demonstration to activate prior knowledge.

2. Present the core ideas of Methods of Teaching: Lecture, Discussion, Demonstration with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Methods of Teaching: Lecture, Discussion, Demonstration.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Methods of Teaching: Lecture, Discussion, Demonstration and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Methods of Teaching: Lecture, Discussion, Demonstration for classroom display.

## Assessment Questions

1. State the merits and demerits of the lecture method.

2. How can a teacher make class discussion effective?

3. When is the demonstration method most suitable?

## Homework

• Write a one-page summary of Methods of Teaching: Lecture, Discussion, Demonstration in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)

# Unit 8: Assessment and Examination

## Learning Objectives

• Distinguish between assessment, measurement and evaluation.

• Describe types of tests: oral, written, objective.

• Explain the uses and abuses of examinations.

## Key Concepts

• Assessment: gathering evidence of learning.

• Formative (during teaching) vs summative (final) evaluation.

• Objective tests: MCQs, true/false; essay tests: depth.

• Exams should guide learning, not create fear.

## Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Assessment and Examination to activate prior knowledge.

2. Present the core ideas of Assessment and Examination with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Assessment and Examination.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

## Classroom Activities

• Pair activity: students discuss the key ideas of Assessment and Examination and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Assessment and Examination for classroom display.

## Assessment Questions

1. Distinguish formative and summative evaluation.

2. Compare objective and essay-type tests.

3. Suggest two reforms to improve examinations.

## Homework

• Write a one-page summary of Assessment and Examination in your notebook.

• Attempt the exercise questions given at the end of the chapter.

## Time Allocation

2 periods (80 minutes)
