Lesson Planning

Complete Lesson Plan Book

Class: Class 12 – FA

Subject: Education

Medium: English

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

Table of Contents

Unit 1: Educational Psychology: Meaning and Scope

Unit 2: Learning: Meaning, Theories and Laws

Unit 3: Motivation in Learning

Unit 4: Individual Differences and Intelligence

Unit 5: Guidance and Counselling

Unit 6: Discipline in Schools

Unit 7: Educational Planning and Management

Unit 8: Problems of Education in Pakistan

DM

Unit 1: Educational Psychology: Meaning and Scope

Learning Objectives

• Define educational psychology and its subject matter.

• Describe the scope: learner, learning process, environment.

• Explain the uses of psychology for a teacher.

Key Concepts

• Psychology of teaching-learning situations.

• Scope: the learner, the learning process, learning environment.

• Methods: observation, experiment, case study.

• Helps teachers understand and motivate learners.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Educational Psychology: Meaning and Scope to activate prior knowledge.

2. Present the core ideas of Educational Psychology: Meaning and Scope with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Educational Psychology: Meaning and Scope.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Educational Psychology: Meaning and Scope and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Educational Psychology: Meaning and Scope for classroom display.

Assessment Questions

1. Define educational psychology.

2. Describe the scope of educational psychology.

3. How does psychology help a classroom teacher?

Homework

• Write a one-page summary of Educational Psychology: Meaning and Scope in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 2: Learning: Meaning, Theories and Laws

Learning Objectives

• Define learning and state its characteristics.

• Explain Thorndike's laws of learning.

• Describe trial-and-error learning with an example.

Key Concepts

• Learning: relatively permanent change in behaviour.

• Thorndike's laws: readiness, exercise, effect.

• Trial and error: cats in puzzle boxes; practice matters.

• Insight learning: Kohler's experiments with apes.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Learning: Meaning, Theories and Laws to activate prior knowledge.

2. Present the core ideas of Learning: Meaning, Theories and Laws with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Learning: Meaning, Theories and Laws.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Learning: Meaning, Theories and Laws and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Learning: Meaning, Theories and Laws for classroom display.

Assessment Questions

1. Define learning and state its characteristics.

2. Explain Thorndike's three laws of learning.

3. What is insight learning? Give an example.

Homework

• Write a one-page summary of Learning: Meaning, Theories and Laws in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 3: Motivation in Learning

Learning Objectives

• Define motivation and explain its types.

• Describe how a teacher can motivate students.

• Distinguish intrinsic and extrinsic motivation.

Key Concepts

• Motivation: the drive that starts and sustains learning.

• Intrinsic: interest, curiosity; extrinsic: rewards, praise.

• Maslow's hierarchy: needs from basic to self-actualisation.

• Teacher tools: goals, feedback, praise, healthy competition.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Motivation in Learning to activate prior knowledge.

2. Present the core ideas of Motivation in Learning with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Motivation in Learning.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Motivation in Learning and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Motivation in Learning for classroom display.

Assessment Questions

1. Define motivation and state its two types.

2. How can a teacher motivate slow learners?

3. Distinguish intrinsic and extrinsic motivation.

Homework

• Write a one-page summary of Motivation in Learning in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 4: Individual Differences and Intelligence

Learning Objectives

• Explain the meaning of individual differences.

• Define intelligence and describe its measurement.

• Suggest how teachers handle mixed-ability classes.

Key Concepts

• No two learners are alike in ability or pace.

• Intelligence: ability to learn, reason and solve problems.

• IQ tests: Binet-Simon scale and its uses.

• Strategies: group work, varied tasks, remedial help.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Individual Differences and Intelligence to activate prior knowledge.

2. Present the core ideas of Individual Differences and Intelligence with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Individual Differences and Intelligence.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Individual Differences and Intelligence and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Individual Differences and Intelligence for classroom display.

Assessment Questions

1. What are individual differences? Give examples.

2. Define intelligence. How is it measured?

3. How should a teacher handle a mixed-ability class?

Homework

• Write a one-page summary of Individual Differences and Intelligence in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 5: Guidance and Counselling

Learning Objectives

• Define guidance and distinguish it from counselling.

• Describe the types: educational, vocational, personal.

• Explain the role of the school counsellor.

Key Concepts

• Guidance: help in making wise choices.

• Counselling: face-to-face help for personal problems.

• Vocational guidance matches aptitude with careers.

• A trained counsellor keeps trust and confidentiality.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Guidance and Counselling to activate prior knowledge.

2. Present the core ideas of Guidance and Counselling with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Guidance and Counselling.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Guidance and Counselling and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Guidance and Counselling for classroom display.

Assessment Questions

1. Define guidance and counselling.

2. Describe the three types of guidance.

3. What is the role of a school counsellor?

Homework

• Write a one-page summary of Guidance and Counselling in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 6: Discipline in Schools

Learning Objectives

• Define discipline and explain its importance.

• Distinguish positive and negative discipline.

• Suggest ways to maintain healthy discipline.

Key Concepts

• Discipline: orderly conduct for effective learning.

• Positive: self-control through understanding; negative: fear of punishment.

• Causes of indiscipline: boredom, unfairness, home problems.

• Democratic classroom rules made with students work best.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Discipline in Schools to activate prior knowledge.

2. Present the core ideas of Discipline in Schools with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Discipline in Schools.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Discipline in Schools and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Discipline in Schools for classroom display.

Assessment Questions

1. Define discipline. Why is it important?

2. Distinguish positive and negative discipline.

3. Suggest four ways to maintain discipline.

Homework

• Write a one-page summary of Discipline in Schools in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 7: Educational Planning and Management

Learning Objectives

• Explain the need for educational planning.

• Describe the functions of school management.

• State the role of the head teacher as manager.

Key Concepts

• Planning: setting goals and arranging resources.

• Management functions: planning, organising, leading, controlling.

• The timetable as a tool of school management.

• Head teacher: academic leader and administrator.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Educational Planning and Management to activate prior knowledge.

2. Present the core ideas of Educational Planning and Management with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Educational Planning and Management.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Educational Planning and Management and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Educational Planning and Management for classroom display.

Assessment Questions

1. Why is educational planning necessary?

2. Describe the functions of school management.

3. What is the role of the head teacher?

Homework

• Write a one-page summary of Educational Planning and Management in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)

Unit 8: Problems of Education in Pakistan

Learning Objectives

• Identify major problems of education in Pakistan.

• Explain the causes of low literacy.

• Suggest practical solutions for improvement.

Key Concepts

• Low budget, ghost schools, teacher shortage.

• Dropout: poverty, child labour, distance to school.

• Examination stress and rote learning culture.

• Solutions: more funding, teacher training, community role.

Teaching Methodology (Step by Step)

1. Warm-up: ask students what they already know about Problems of Education in Pakistan to activate prior knowledge.

2. Present the core ideas of Problems of Education in Pakistan with clear board notes, definitions and real-life examples.

3. Explain each key concept in sequence, using questions to check understanding at every stage.

4. Guided practice: short written exercises and class discussion applying Problems of Education in Pakistan.

5. Recap the main points, clear remaining doubts and close with a quick oral quiz.

Classroom Activities

• Pair activity: students discuss the key ideas of Problems of Education in Pakistan and present a two-minute summary to the class.

• Group task: prepare a wall chart or mind map on Problems of Education in Pakistan for classroom display.

Assessment Questions

1. State five problems of education in Pakistan.

2. What are the causes of student dropout?

3. Suggest three practical solutions.

Homework

• Write a one-page summary of Problems of Education in Pakistan in your notebook.

• Attempt the exercise questions given at the end of the chapter.

Time Allocation

2 periods (80 minutes)
