Lesson Planning

Complete Lesson Plan Book

Class: Class 4

Subject: Computer

Medium: English

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

Table of Contents

Unit 1: Hardware and Software

Unit 2: Input and Output Devices

Unit 3: Introduction to MS Paint

Unit 4: Typing Practice

Unit 5: Storage Devices

Unit 6: Internet and Safety

Unit 7: Computer Ethics

DM

Unit 1: Hardware and Software

Learning Objectives

• Tell the difference between hardware and software.

• Name three hardware parts.

• Name two software examples.

Key Concepts

• Hardware is what we can touch.

• Software is the programs inside.

• The monitor is hardware; a game is software.

• Both work together.

Teaching Methodology (Step by Step)

1. Show hardware parts; pupils touch and name.
2. Open a program: this is software.
3. Sort cards: hardware vs software.
4. Discuss: can software work without hardware?
5. Draw and label both.

Classroom Activities

• Hardware-software sorting race.

• Draw a computer: circle hardware, box software.

Assessment Questions

1. What is hardware?
2. Name two hardware parts.
3. Is a game hardware or software?
4. Can software work without hardware?

Homework

• List five hardware and three software at home or school.

Time Allocation

3 periods of 35 minutes each.

DM

Unit 2: Input and Output Devices

Learning Objectives

• Name input devices.

• Name output devices.

• Tell how data flows in and out.

Key Concepts

• Input devices send data in: keyboard, mouse.

• Output devices show results: monitor, printer.

• A microphone is input; speakers are output.

• Touch screens do both.

Teaching Methodology (Step by Step)

1. Demonstrate typing (in) and seeing (out).
2. Sort device cards: input vs output.
3. Show a printer if available.
4. Pupils label a diagram.
5. Quiz: teacher names device, pupils say in or out.

Classroom Activities

• Device sorting game.

• Draw and label input and output devices.

Assessment Questions

1. Name two input devices.
2. Name two output devices.
3. Is a printer input or output?
4. What does a microphone do?

Homework

• Draw a computer; label input and output devices.

Time Allocation

3 periods of 35 minutes each.

DM

Unit 3: Introduction to MS Paint

Learning Objectives

• Open MS Paint.

• Use the brush, shapes and colours.

• Save a simple drawing.

Key Concepts

• MS Paint is a drawing program.

• The toolbox has brushes and shapes.

• We pick colours from the palette.

• We save our work with a name.

Teaching Methodology (Step by Step)

1. Open Paint step by step together.
2. Demonstrate brush and colours.
3. Pupils draw freely for ten minutes.
4. Show shapes: circle, rectangle.
5. Guide pupils to save their drawings.

Classroom Activities

• Free drawing time in Paint.

• Draw your house in Paint.

Assessment Questions

1. How do we open MS Paint?
2. Where do we pick colours?
3. Name two tools in Paint.
4. How do we save our drawing?

Homework

• Practise drawing shapes in Paint; save your work.

Time Allocation

4 periods of 35 minutes each.

DM

Unit 4: Typing Practice

Learning Objectives

- Place fingers correctly on home row.
- Type simple words without looking.
- Type a short sentence with spaces.

Key Concepts

- Home row keys are a, s, d, f, j, k, l.
- Thumbs press the spacebar.
- We look at the screen, not fingers.
- Practice makes typing fast.

Teaching Methodology (Step by Step)

1. Show home row on a big keyboard.
2. Pupils place fingers; teacher checks.
3. Type home row letters slowly.
4. Type simple words: cat, dog, sun.
5. Short timed typing challenge.

Classroom Activities

- Typing race: who types five words first?
- Type your name ten times correctly.

Assessment Questions

1. Which keys are on the home row?
2. Which fingers press the spacebar?
3. Type the word cat.
4. Why do we look at the screen?

Homework

- Practise home row keys for ten minutes daily.

Time Allocation

4 periods of 35 minutes each.

DM

Unit 5: Storage Devices

Learning Objectives

• Name common storage devices.

• Tell the use of each device.

• Handle storage devices carefully.

Key Concepts

• A USB stores our files and photos.

• A hard disk stores lots of data.

• Memory cards are used in phones and cameras.

• CDs are round disks for storing.

Teaching Methodology (Step by Step)

1. Show a USB, memory card and CD.
2. Pupils hold and name each.
3. Discuss: where do your photos stay?
4. Demonstrate safe removal of USB.
5. Draw and label devices.

Classroom Activities

• Storage show-and-tell.

• Match device cards with uses.

Assessment Questions

1. Name three storage devices.
2. Where are photos stored in a phone?
3. What is a USB used for?
4. How should we remove a USB?

Homework

• Draw three storage devices; write one use of each.

Time Allocation

3 periods of 35 minutes each.

DM

Unit 6: Internet and Safety

Learning Objectives

- Tell what the internet is simply.
- Name two good uses of the internet.
- Follow three internet safety rules.

Key Concepts

- The internet connects computers worldwide.
- We learn and watch educational videos.
- Never share personal photos online.
- Tell an adult about anything strange.

Teaching Methodology (Step by Step)

1. Discuss: what is the internet?
2. Show an educational video clip.
3. Teach safety rules with a story.
4. Role play: a stranger messages you.
5. Make an internet safety poster.

Classroom Activities

- Safety poster for the classroom.
- Good vs bad internet use sorting.

Assessment Questions

1. What is the internet?
2. Name two good uses.
3. Name two internet safety rules.
4. Who should you tell about a strange message?

Homework

- Teach one internet safety rule to your family.

Time Allocation

4 periods of 35 minutes each.

DM

Unit 7: Computer Ethics

Learning Objectives

• Use computers honestly and fairly.

• Respect others' work and passwords.

• Share computer time fairly.

Key Concepts

• Ethics means right behaviour.

• We do not open others' files.

• We do not share passwords.

• We take turns on the computer.

Teaching Methodology (Step by Step)

1. Discuss: is it right to copy a friend's work?
2. Role play: asking for a turn politely.
3. Make class computer rules.
4. Pupils sign an ethics promise.
5. Praise fair behaviour.

Classroom Activities

• Ethics promise signing ceremony.

• Design a fair-use poster.

Assessment Questions

1. What are computer ethics?
2. Should you open a friend's file?
3. Should you share your password?
4. How do we share computer time fairly?

Homework

• Write three computer ethics rules in your notebook.

Time Allocation

3 periods of 35 minutes each.
