# Lesson Planning

## Complete Lesson Plan Book

**Class: Class 6**

**Subject: General Knowledge**

**Medium: English**

Academic Year 2026-27

This book is prepared as a teaching guide for teachers.

# Table of Contents

Unit 1: Pakistan Studies Quiz

Unit 2: World Geography Facts

Unit 3: Inventions and Discoveries

Unit 4: The Human Body: Amazing Facts

Unit 5: Space and the Planets

Unit 6: Famous Books and Authors

Unit 7: Islamic History Quiz

Unit 8: Science Quiz

DM

# Unit 1: Pakistan Studies Quiz

## Learning Objectives

• Students will be able to answer 10 questions about Pakistan.

• Students will be able to name the founder and national poet.

• Students will be able to state the independence day and its importance.

## Key Concepts

• The founder of Pakistan.

• National poet: Allama Muhammad the national poet.

• Independence Day: 14 August 1947.

• National dress, dish and game.

## Teaching Methodology (Step by Step)

1. Begin with a 5-minute warm-up: ask 2-3 oral questions revising the previous lesson and linking it to Pakistan Studies Quiz.

2. Present the key ideas of Pakistan Studies Quiz on the board with one clear example or a labelled diagram.

3. Explain each point slowly in simple words, asking a short check-question after every point.

4. Do guided practice: solve 3-4 examples of Pakistan Studies Quiz together, inviting students to complete steps on the board.

5. Close with a 5-minute oral recap in which students state one new thing they learned about Pakistan Studies Quiz.

## Classroom Activities

• Quiz bowl: teams compete answering Pakistan studies questions.

• Rapid fire: 20 questions in 5 minutes.

## Assessment Questions

1. Who is the founder of Pakistan?

2. When did Pakistan come into being?

3. Name the national poet of Pakistan.

## Homework

• Prepare 10 quiz questions about Pakistan with answers.

## Time Allocation

Two periods (80 minutes): 10 min warm-up and revision, 25 min concept presentation, 25 min guided and independent practice, 15 min activity and assessment, 5 min closure and homework.

# Unit 2: World Geography Facts

## Learning Objectives

• Students will be able to name the largest desert and ocean.

• Students will be able to name the longest river.

• Students will be able to locate 5 countries on a map.

## Key Concepts

• Largest desert: Sahara; largest ocean: Pacific.

• Longest river: the Nile; highest peak: Mount Everest.

• Pakistan's neighbours on the map.

• Equator divides Earth into two halves.

## Teaching Methodology (Step by Step)

1. Start with rapid-fire mental revision: 5 quick questions from the last lesson connected to World Geography Facts.

2. Demonstrate World Geography Facts step by step on the board while students watch, listen and copy.

3. Move to guided practice: students attempt 2-3 similar items with the teacher's support.

4. Give independent practice: a short written task on World Geography Facts completed individually in notebooks.

5. Check a few notebooks on the spot, correct common mistakes on the board and summarise World Geography Facts.

## Classroom Activities

• Map race: students locate 5 countries in 3 minutes.

• Superlative cards: match superlatives with names.

## Assessment Questions

1. Which is the largest desert in the world?

2. Name the longest river in the world.

3. Which is the highest mountain peak?

## Homework

• Write 10 world geography facts in the notebook.

## Time Allocation

Two periods (80 minutes): 10 min revision, 20 min explanation with examples, 30 min practice and class activity, 15 min oral and written check, 5 min homework briefing.

# Unit 3: Inventions and Discoveries

## Learning Objectives

• Students will be able to name five great inventions.

• Students will be able to name the inventors of two inventions.

• Students will be able to explain how one invention changed life.

## Key Concepts

• Bulb and telephone: famous inventors.

• Aeroplane and printing press: famous inventors.

• Computer and internet: modern age.

• Inventions make life easier.

## Teaching Methodology (Step by Step)

1. Open with a hook: a short story, riddle or real-life example that introduces Inventions and Discoveries.

2. Lead a class discussion on Inventions and Discoveries with 4-5 guiding questions; record key answers on the board.

3. Organise the main activity in pairs or small groups according to the plan for Inventions and Discoveries.

4. Let groups share their work; add corrections and the important points of Inventions and Discoveries.

5. Finish with a quick oral or written check on Inventions and Discoveries and announce the homework.

## Classroom Activities

• Inventor match: match inventions with inventors.

• Before and after: describe life before and after electricity.

## Assessment Questions

1. Who invented the telephone?

2. Who made the first aeroplane?

3. Name two inventions that changed the world.

## Homework

• Write 5 lines on your favourite invention.

## Time Allocation

Two periods (80 minutes): 10 min warm-up and revision, 25 min concept presentation, 25 min guided and independent practice, 15 min activity and assessment, 5 min closure and homework.

# Unit 4: The Human Body: Amazing Facts

## Learning Objectives

• Students will be able to state five amazing body facts.

• Students will be able to name the largest bone and muscle.

• Students will be able to explain why exercise is important.

## Key Concepts

• Largest bone: femur; smallest: stapes in the ear.

• The brain has about 86 billion neurons.

• Bones are stronger than concrete.

• Exercise keeps heart and muscles strong.

## Teaching Methodology (Step by Step)

1. Begin with 5 minutes of silent or loud reading connected to The Human Body: Amazing Facts.

2. Explain the new words and key ideas of The Human Body: Amazing Facts; write difficult words with meanings on the board.

3. Read the passage or examples of The Human Body: Amazing Facts together, with students taking turns.

4. Students complete a short written exercise on The Human Body: Amazing Facts in their notebooks.

5. Review the answers together, praise good work and give a brief summary of The Human Body: Amazing Facts.

## Classroom Activities

• Fact or bluff: students judge 8 body statements.

• Body quiz: rapid questions on organs and bones.

## Assessment Questions

1. Which is the largest bone in the body?

2. How many bones are in an adult human?

3. Why is exercise important?

## Homework

• Write 8 amazing facts about the human body.

## Time Allocation

Two periods (80 minutes): 10 min revision, 20 min explanation with examples, 30 min practice and class activity, 15 min oral and written check, 5 min homework briefing.

# Unit 5: Space and the Planets

## Learning Objectives

• Students will be able to name the planets in order.

• Students will be able to state which planet is called the red planet.

• Students will be able to explain what a star is.

## Key Concepts

• Eight planets from Mercury to Neptune.

• Red planet: Mars; ringed planet: Saturn.

• Star: a huge ball of burning gas; the sun is a star.

• First man on the moon: Neil Armstrong, 1969.

## Teaching Methodology (Step by Step)

1. Begin with a 5-minute warm-up: ask 2-3 oral questions revising the previous lesson and linking it to Space and the Planets.

2. Present the key ideas of Space and the Planets on the board with one clear example or a labelled diagram.

3. Explain each point slowly in simple words, asking a short check-question after every point.

4. Do guided practice: solve 3-4 examples of Space and the Planets together, inviting students to complete steps on the board.

5. Close with a 5-minute oral recap in which students state one new thing they learned about Space and the Planets.

## Classroom Activities

• Planet order race: arrange planet cards in order quickly.

• Space quiz: 10 questions on space and planets.

## Assessment Questions

1. Which planet is called the red planet?

2. Which planet has beautiful rings?

3. Who was the first man on the moon?

## Homework

• Draw the solar system and write one fact about each planet.

## Time Allocation

Two periods (80 minutes): 10 min warm-up and revision, 25 min concept presentation, 25 min guided and independent practice, 15 min activity and assessment, 5 min closure and homework.

# Unit 6: Famous Books and Authors

## Learning Objectives

• Students will be able to name three famous books.

• Students will be able to name the authors of two books.

• Students will be able to explain why reading is important.

## Key Concepts

• Books are our best friends.

• Famous: story books, poetry, history books.

• Authors write; poets write poetry.

• Library: home of many books.

## Teaching Methodology (Step by Step)

1. Start with rapid-fire mental revision: 5 quick questions from the last lesson connected to Famous Books and Authors.

2. Demonstrate Famous Books and Authors step by step on the board while students watch, listen and copy.

3. Move to guided practice: students attempt 2-3 similar items with the teacher's support.

4. Give independent practice: a short written task on Famous Books and Authors completed individually in notebooks.

5. Check a few notebooks on the spot, correct common mistakes on the board and summarise Famous Books and Authors.

## Classroom Activities

• Book talk: students present their favourite book in 5 lines.

• Author match: match 5 books with their authors.

## Assessment Questions

1. Name three famous books you know.

2. Why is reading important?

3. What is a library?

## Homework

• Write 5 lines on your favourite book.

## Time Allocation

Two periods (80 minutes): 10 min revision, 20 min explanation with examples, 30 min practice and class activity, 15 min oral and written check, 5 min homework briefing.

# Unit 7: Islamic History Quiz

## Learning Objectives

• Students will be able to answer 8 questions on Islamic history.

• Students will be able to name the four righteous caliphs.

• Students will be able to state two achievements of the caliphs.

## Key Concepts

• The four rightly-guided caliphs.

• The first caliph: compiled the Quran.

• The second caliph: great conquests and justice.

• Ali: knowledge and bravery.

## Teaching Methodology (Step by Step)

1. Open with a hook: a short story, riddle or real-life example that introduces Islamic History Quiz.

2. Lead a class discussion on Islamic History Quiz with 4-5 guiding questions; record key answers on the board.

3. Organise the main activity in pairs or small groups according to the plan for Islamic History Quiz.

4. Let groups share their work; add corrections and the important points of Islamic History Quiz.

5. Finish with a quick oral or written check on Islamic History Quiz and announce the homework.

## Classroom Activities

• Caliph cards: match each caliph with achievements.

• Quiz competition: teams answer Islamic history questions.

## Assessment Questions

1. Name the four righteous caliphs.

2. Who compiled the Quran in one book?

3. Name one achievement of a rightly-guided caliph.

## Homework

• Write 5 lines on one righteous caliph.

## Time Allocation

Two periods (80 minutes): 10 min warm-up and revision, 25 min concept presentation, 25 min guided and independent practice, 15 min activity and assessment, 5 min closure and homework.

# Unit 8: Science Quiz

## Learning Objectives

• Students will be able to answer 10 general science questions.

• Students will be able to explain one answer in detail.

• Students will be able to show curiosity for science.

## Key Concepts

• Mixed questions: body, plants, matter, energy.

• Quick recall of class 5 and 6 science.

• Reasoning: why and how questions.

• Learning from mistakes in quiz.

## Teaching Methodology (Step by Step)

1. Begin with 5 minutes of silent or loud reading connected to Science Quiz.

2. Explain the new words and key ideas of Science Quiz; write difficult words with meanings on the board.

3. Read the passage or examples of Science Quiz together, with students taking turns.

4. Students complete a short written exercise on Science Quiz in their notebooks.

5. Review the answers together, praise good work and give a brief summary of Science Quiz.

## Classroom Activities

• Science bowl: teams compete in a science quiz.

• Why chain: students ask why questions; others answer.

## Assessment Questions

1. What gas do plants absorb for photosynthesis?

2. Name three states of matter.

3. What is the unit of electric current?

## Homework

• Prepare 10 science quiz questions with answers.

## Time Allocation

Two periods (80 minutes): 10 min revision, 20 min explanation with examples, 30 min practice and class activity, 15 min oral and written check, 5 min homework briefing.
